The Brussels I bis Regulation, together with other instruments, forms a core of European civil procedural law. Events in this series serve to promote dialogue among Member States and with third countries, thereby strengthening and improving the integration and efficiency of European legal instruments. The online conference on 01 October 2026 will first focus on current developments regarding the Brussels II ter Regulation. This will be followed by three country Reports from Poland, Luxemburg and the Czech Republic on the Brussels I bis Regulation. The event is aimed at academics and practitioners alike. We look forward to a lively exchange.
